When I wake up, I love to move in your wonderful garden
According to my desires, hang out there all night
I love my light waves, to dance
Discover the mysteries of your starry garden

Si **La** **Mi** **Mi4**

We wait to see flowers grow, we listen to mocking birds sing...our trip is happy

Fa#m **Mi** **Mi7**

I like to take refuge under the trees of your forest,
I can wait to relax, in the shade of your secret garden

Si **La** **Mi** **Mi4**

The sun on our faces, we watch butterflies awaken, we are so lucky...our trip is happy

Fa#m **Mi** **Mi7**

I like to climb along the cliff, with effort and pain
Exhausted I calm down, in your Garden of Eden

Si **La** **Mi** **Mi4**

The softness of grass under our bodies, we are so lucky,...our trip happy

Fa#m **Mi** **Mi7**

I like to reap the forbidden fruits,
Bite them, savor them, in secret, in the heights of your hanging garden

Si **La** **Mi** **Mi4**

Your breath ruffles my hair, you whisper that we look great
The moonlight up our faces, reveals beaming smiles, our trip is happy

Fa#m **Mi** **Mi7**

Trip in the garden, we are so happy, trip in the garden, we are so lucky
Trip in the garden, we are so happy, trip in the garden, we are so lucky
